To whom it may concern

Dear Sir or Madam:

RE- BLUEJAY CONSTRUCTION

Bluejay Construction has successfully completed a complicated project here at Nescot College during the summer vacation of 2006 involving the construction of disabled access ramps and walkways, builders' work in connection with disabled lift installations, decorating, lighting and the construction of fire lobbies, exits and a metal escape staircase.

The project was carried out efficiently, to a good standard of finish and on programme. The site personnel were friendly, professional and helpful, especially when directing disorientated staff and students away from the ongoing works.

Their site management was excellent and proved to be very experienced, helpful and flexible when we were carrying out a major relocation of academic departments. There was a good working relationship between the College premises management, Bluejay and the consultant team.

We had no problems with health and safety matters and the Health and Safety file was produced and handed over very promptly.

I would employ Bluejay Construction again to carry out works at Nescot and I would recommend them for any similar or refurbishment works.

Yours sincerely,

Mike Rowland
