To whom it may concern,

Bluejay Construction Limited worked at our School during the Summer 2005.

They were extremely professional and did a very good job creating a therapy room and disabled toilet facility. The work consisted of the following:

- The removal of existing fixtures and fittings.
- The modification of masonry wall at door opening to provide new disabled toilet entrance door set.
- The provision of sanitary ware. Hot and cold supply and drainage pipe work, ventilation extract, fixtures, fittings, door set, joinery, small power and lighting within the new therapy room.
- The provision of new aluminium double glazed double entrance door set to reception area/external play entrance.
- The removal of the existing double mobile classroom foundations/services and making good/resurfacing of macadam reception playground.
- The provision of new covered canopy at reception playground.

The Governors were very pleased with the work carried out and would not hesitate to employ Bluejay Construction Limited for further building projects. Should you require more information do not hesitate to contact me.

Yours faithfully,

Mrs M.E. Mullarkey
