Testimonial for Bluejay Construction

Bluejay Construction were the main contractors appointed to carry out the works to the **Teaching Accommodation Block**. The project took approximately 1 year with a build value of £1.2 million.

The project included an eco-friendly modern building, including four classrooms, a disabled toilet, office as well as refurbishment of the surrounding area including new muga court and trim trail.

This was a difficult job requiring co-ordination of the day to day running of the school alongside the delivery of materials and mechanical machinery coming into and out of the school premises. Access was gained through a local housing estate which was managed without complaint. The running of the job was made easier by the professionalism of the management of Bluejay Construction, who fully co-ordinated with me, holding weekly meetings.

The work was carried out efficiently and to a high standard, on time and within budget as per the tender. Bluejay Construction have always been very co-operative and flexible, with the ability to change specifications as work progressed. They have always placed our interests first, and this philosophy is fostered also by their employees. I have no hesitation in recommending Bluejay Construction for any new build or refurbishment work regardless of the size and scope of the task.

Yours faithfully

Dear Paul and Bernadette

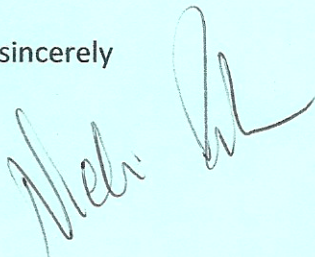

St Margaret Clitherow Primary School
Completion of the new building

The governing body have asked me to write to you on their behalf to express their heartfelt thanks for the fantastic job you have done with the new building. When they had a brief tour as part of the governing body meeting on Monday they were delighted to what a lovely practical but inspiring building it has become.

The governors were particularly impressed by the thoughtful use of materials and design to create such a lovely bright and spacious working area. The staff and children are very excited about getting into their new 'homes' and it will make such a huge difference for everyone in the school.

When Mrs McSperrin explained what an important part you played in bringing the project through to such a wonderful conclusion with the minimum of fuss and disruption, the governors wanted to let you know how very much it was appreciated. I know that they are hoping that there will be another opportunity to work with you in the not too distant future – Phase 2.....!

Yours sincerely

Nicki Parker
Clerk to the Governing Body, St Margaret Clitherow Primary School
